PROFESSIONAL SUMMARY

Senior Web Developer with 7 years of experience in full-stack development, building and maintaining large-scale websites across multiple brands. Experienced in leading development initiatives from planning to production, translating business requirements into technical solutions, and coordinating cross-functional teams. Strong expertise in front-end and back-end development, stakeholder communication, project coordination, and technical delivery, with the ability to bridge business objectives and technical execution.

WORK EXPERIENCE

Aug 2022 – Present

Eyden Kreatif Indonesia — Jakarta

Senior Web Developer | Okt 2024 – Present

Managed technical delivery and web operations across 6 major brands: GenerasiMaju, Nutriclub, Bebeclub, NutriShop, Quaker Indonesia, and Enesis. Responsible for end-to-end project execution, team coordination, technical solutions, and cross-functional stakeholder communication.

- Led end-to-end delivery of 20+ projects, from requirement gathering and timeline planning to staging and production releases.
- Delivered large-scale 3-month brand campaign websites handling 15,069+ average traffic and 20,000+ daily submissions (totaling over 1 million submissions per campaign), maintaining zero downtime.
- Coordinated development workflows across a 6-person web team, assigning tasks, monitoring progress, and mentoring 1 junior developer.
- Developed website features, campaign pages, and API integrations with third-party platforms, including marketing automation and partner applications.
- Managed Shopify e-commerce operations for NutriShop, supporting ongoing platform improvements and business requirements.
- Prepared technical proposals and requirement documents, translating business objectives into feasible technical solutions.
- Collaborated on AI-driven initiatives to develop innovative website features and tools, enhancing user experience, engagement, and overall platform value.
- Maintained website performance, technical health, and operational stability across all managed brands.

Web Developer | Aug 2022 – Sept 2024

Developed and maintained 3 brand websites: GenerasiMaju, Nutriclub, and Bebeclub, focusing on platform maintenance, feature development, and technical improvements.

- Maintained daily website operations, resolving technical issues and ensuring platform stability.
- Developed 10+ landing pages, website features, and platform components based on business requirements.
- Implemented technical SEO improvements, including meta tags, structured data, and on-page optimizations.
- Set up analytics event tracking and data layers to support user behavior analysis and marketing performance measurement.

Oct 2019 – Jul 2022 | Srikandi Digital Indonesia | Bogor

Project Manager | Jan 2021 – Jul 2022

Managed client projects and development workflows, bridging communication between clients and technical teams to ensure project requirements were translated into actionable solutions and delivered effectively.

- Managed client communication, gathering requirements and translating business needs into development tasks.
- Coordinated task assignments, priorities, and workload distribution to ensure efficient team execution and project progress.
- Monitored project progress, identified development blockers, and supported team members in resolving issues to maintain delivery timelines.
- Managed product planning initiatives for company offerings, including WordPress plugins and digital services.
- Collaborated with developers on product design and implementation, translating concepts into functional plugins and application-based solutions.
- Created wireframes and defined user flows to establish clear development direction and improve alignment between requirements and implementation.

WordPress Developer | Oct 2019 – Jul 2022

Developed and maintained WordPress websites for clients and internal projects, focusing on website functionality, customization, and performance optimization.

- Developed websites from scratch and customized existing WordPress websites based on client requirements.
- Installed, configured, and customized free and premium WordPress plugins to extend website functionality.
- Maintained and optimized client and internal websites to ensure performance, stability, and reliability.

Jul 2019 – Sep 2019 | Intern Web Developer, Carsworld Digital Indonesia | Tangerang Selatan

- Contributed to website improvements by enhancing dashboard functionality and user experience.
- Performed routine website maintenance, bug fixing, and minor feature enhancements to maintain platform stability.
- Collaborated with cross-functional teams to support development activities and project delivery.
